Review Practice Drafts and Confirm the G1 Decision

© 2026 Inspire | Confidential

Project staffing requirements at a glance

MVP	Maintain skill types and skills, submit a position with its headcount, find people by acceptable grade and skill maturity, recommend and confirm each person, and show the shortlist and the headcount gap.
Change 1	Add staffing dates to a position, detect schedule conflicts, and check availability again at final confirmation.
Change 2	Add travel requirements and communication records, and separate preferences from this answer and from information still to be verified.
Change 3	Day 12 homework: when no qualified person is in the pool, a higher-level person from another role may fill the opening.

Verify the Change and Record the G2 Decision (P4/G2)

© 2026 Inspire | Confidential

G2: four categories and their artifacts

CATEGORY	WHAT IT INCLUDES	MAIN BASIS FOR JUDGMENT	RECOMMENDED ARTIFACTS
Requirement implementation	Business rules, user flows, page states, role permissions, external integrations, and scope differences	The specification confirmed at G1, prototypes, and external contracts	Acceptance test results, page operation records, contract tests and integration records
Engineering quality	Build, static checks, internal interfaces, data persistence, unit and integration tests, regression, and code review	The P3 design, the test plan, and the project development standards	Build and test reports, code review records, and local verification reports
Runtime quality	Performance, security and privacy, compatibility, accessibility, availability, recovery, and applicable migration and startup checks	G1 runtime requirements and the P3 verification arrangements	Quality test reports, scan results, and drill and environment records
Delivery evidence	Verified version, re-checkable results, defect risk, exceptions, and manual sign-off	The project release rule and this checklist	Verification checklist, CI/CD report, defect list, and g2-decision.md

Update Your Specification and Record the G3 Decision (P5/G3)

© 2026 Inspire | Confidential

Three categories and their artifacts

CATEGORY	WHAT IT INCLUDES	RECOMMENDED ARTIFACTS
Merge and specification	Code delivery location, G2 validity, formal specification update, conflict handling, and any required knowledge-base update	Code merge record, the candidate and delivered version mapping, Living Spec differences, and merge and update results
Archive and traceability	Archive list, evidence links, version relationships, delivery summary, and history records	Change archive folder, verification checklist, change-summary.md, and archive check records
Open items and handover	G2 retained items, defects and risks, later verification, owners, and receiver confirmation	The existing issue tracker or follow-up task list, handover records, and related approval records
